What should I know about the SMART2™ LiteALL™?

The **SMART2™ LiteALL™** is only compatible with Version 9 (V9) or newer SMART2™ remotes (or any SMART2™ shipped on or after March 27, 2013). To check the version of your remote, go to the SETUP menu, then to INFORMATION; the version will be listed. This information is also provided on the peelable decal on your LiteALL™ module *(see at left)*.

If adding a **SMART2™ LiteALL™** to an existing Pro-Trap® or 4500 Series that has been operating with a Version 8 (V8) remote, you MUST update the receivers of these devices. (Receivers are in the gray boxes where the push buttons are located.) Access inside of this box is NOT necessary; the update is done wirelessly.

All older-version SMART2™ remotes are easily upgradable in one of two ways: 1) bring your remote to any Shur-Co® branch location, where it can be upgraded for a $25 service fee, or 2) call Shur-Co® for an RMA#, then mail the remote to the address given at bottom left (you will be responsible for paying postage both ways as well as the $25 service fee).

Once your V8 remote has been updated to V9, the remote will then prompt you to update your 4500 or ProTrap® receiver when you select the device from the main menu *(see screen shot at left)*. Select YES to allow the remote to update the receiver. Repeat this process for all V8 receivers.

For additional information about Shur-Co® products, give us a call at **1.800.474.8756** Monday through Friday, from 8:00 a.m. to 5:00 p.m. Central Time. Our friendly and knowledgeable Customer Service Representatives will be happy to answer your questions. Or log on to our website at **shurco.com**.

Above: Updating the V8 receiver after upgrading your SMART2™ is explained in this bulletin and on this peelable decal included in your Lite-ALL™ kit. You will receive a prompt (at left) to update your receiver.

This module is compatible with SMART2™ remotes, <u>version 9 or newer.</u>
All previously purchased SMART2™ remotes are upgradable.
To check the version of your remote:
• Go to **SETUP MENU**
• Go to **INFORMATION**
If your remote is version 8 or older, contact Shur-Co®, LLC for upgrade options.

ONLY END USER MAY REMOVE THIS LABEL.
