The Shur-Co® Promise:
The Best-Designed, Best-Engineered, Best-Built Tarping Systems

Quality is in the details, no matter how small, from reinforced stitching at stress points to heat-welded seams for a watertight bond between panels; the added thickness creates an improved moisture barrier. Our tarps are built to withstand the stresses of over-the-road hauling, with unmatched performance and style. Customize with many available options, tarp colors and fabrics.

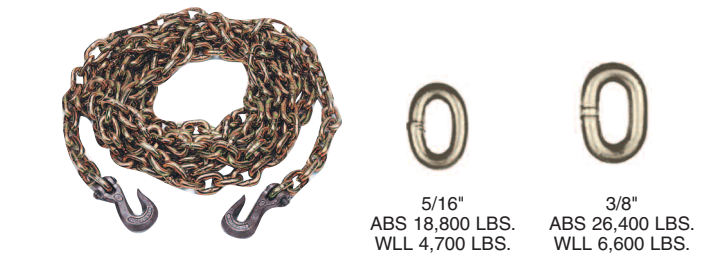

Premium materials and quality workmanship go into every tarp Shur-Co® manufactures. D-rings are double stitched and reinforced, then placed – as are grommets – 24 inches on center. Standard features are vertical row D-rings, grab handles for a sure grip to help align and center the tarp on the load and a universal flap, for added versatility.

Custom options like multiple colors, special designs, logo graphics, stenciling – even reflective webbing – allow you to completely individualize your tarp for increased safety, theft deterrence and branding/name recognition that encourages driver recruitment.

FLAT STRAPS

Order No.	Description
1702176	2" x 30' Flat Hook Winch Strap
1702195	2" x 30' Flat Hook Ratchet Strap
1702188	4" x 30' Flat Hook Winch Strap

TARPING SYSTEMS AND ACCESSORIES

Dependability is key, especially when it comes to over-the-road travel. Shur-Co® is your partner all across North America, thanks to our many service locations and an extensive network of dealers that allow you to feel secure in the face of any repair or installation need.

Shur-Co® acquired Canadian company Roll-Tite™ in 2014, entering the retractable tarp market and cementing our position as a key supplier in the flatbed industry. Now branded ShurTite™, this division of Shur-Co® has dozens of standard configurations for flatbeds, trucks and trailers, plus a staff of engineers who can design to meet your individual hauling requirements.

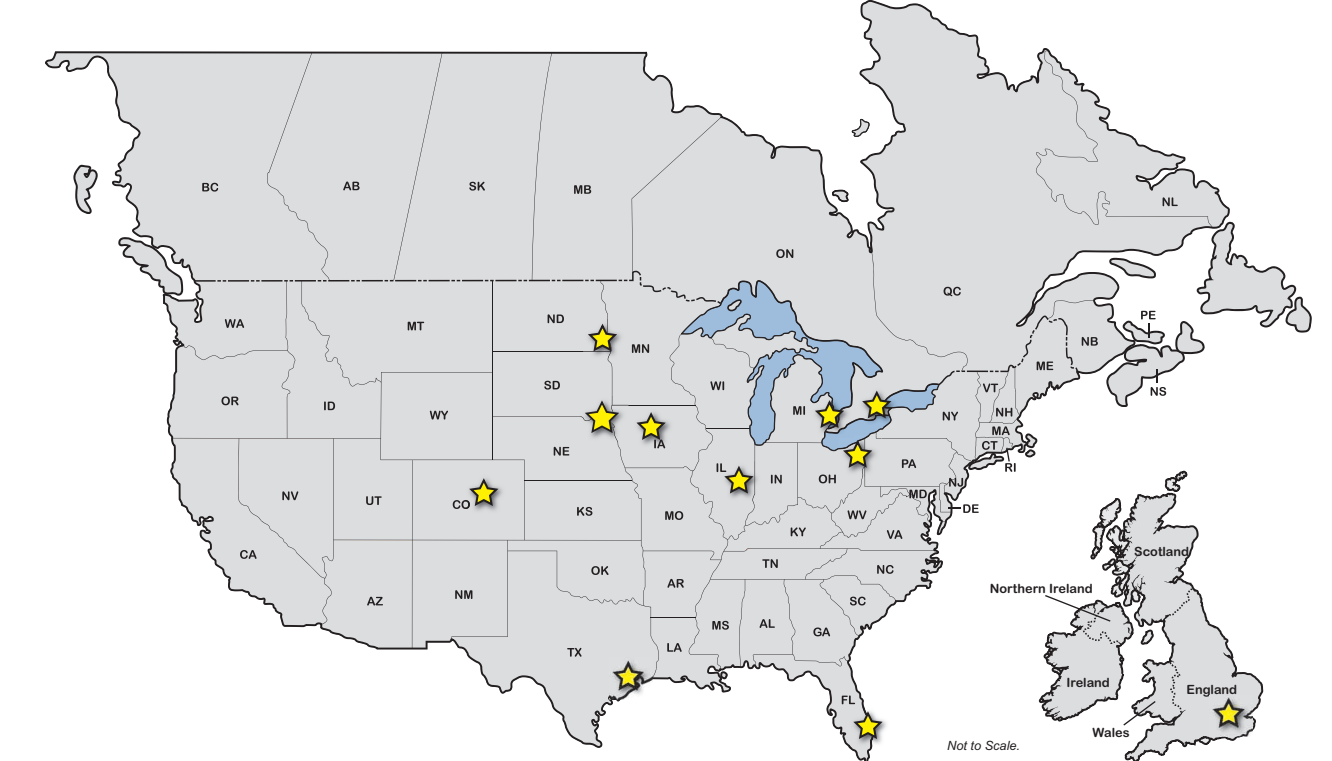

ShurTite™ backs its products with an end-to-end two-year warranty. That's how confident we are in our materials and workmanship. We know our customers will be completely satisfied.

We are committed to meeting your tarping needs, thanks to our dedicated staff with its strong, midwestern work ethic. Our 150,000 square foot facility with tarp and metal fabrication departments – in combination with 11 service sites throughout North America, hundreds of authorized Shur-Co® dealers and our ever-expanding global capabilities – make Shur-Co® the name you can trust.

Our employees go the extra mile to provide our customers with superior-quality products. They take pride in their jobs, and their dedication and attention to detail has earned us the respect of the tarping industry during our 60-plus years of business.

Shur-Co® quality shows even in the smallest details. Our innovative engineers and expansive research-and-development department are constantly striving to make our products the very best they can be. Stringent quality assurance testing is ongoing, and customer input is given the utmost consideration. Our goal is always to make our products the hands-down best choice in the industry.

In-Stock Steel Tarps

Varying Length and/or Width Reinforced D-Rings

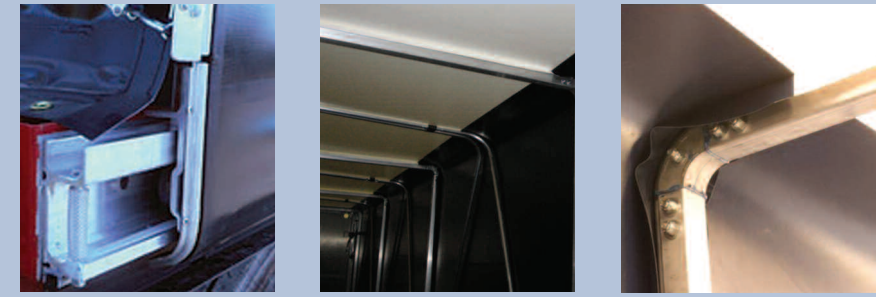

SHURTITE
RETRACTABLE TARP SYSTEMS
A Shur-Co® Brand

Lightweight customizable tarping! A ShurTite™ system adds just over 1,500 pounds to a 48-foot flatbed, compresses to just 8 feet and locks to any spot on the track. It saves time and money, allowing safe one-person operation from the ground. And it looks great, with digital or inked graphics for maximum visual impact.

STANDARD FEATURES

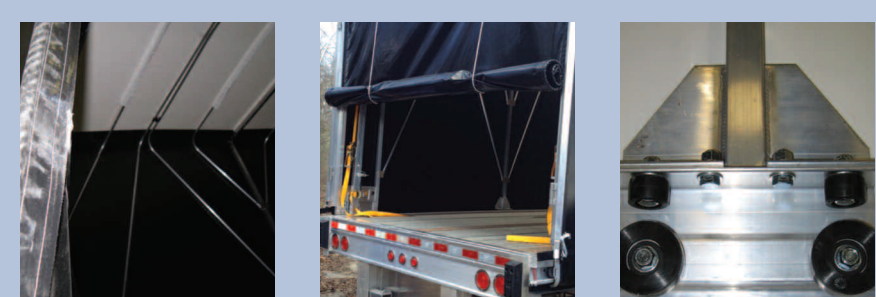

Our lightweight extruded aluminum track can flex with trailer. Resists side impacts. Removable air deflector repels debris. Replaceable polymer insert prolongs track life.

Bow tarp support structure of extruded aircraft-quality aluminum. Standard heights (72, 84, 100 inches), modular bolted construction, no-weld repairs for less downtime.

Industry-leading aerodynamic headboard features reinforced vertical posts. LED corner marker lights standard, optional access door, dunnage rack, chain box.

Integrated lever-control front locks offer smooth operation. Lets system be detached from headboard for added versatility and to ensure a tight, weatherproof seal.

Lightweight hinged lifters reduce droop in tarp when system is opened, for better loading capacity and even more clearance if single extra lifters are added.

Rear flap with choice of roll-up: crank or rope-and-pulley. Lock bars secure flap, weight bars make rolling easy and bottom grommets facilitate tiedown.

OPTIONS AND UPGRADES

Sturdy injection-molded aluminum bow corners have a 1 3/8-inch inside radius to optimize loading capacity. Easily disassembled, reducing repair time and costs.

Multipaneled tarp system of heavy-duty high-gloss, PVC-coated polyester – available in 40 colors. A skylight panel runs full length for daytime interior visibility.

We offer three types of tarp tensioning devices: our standard ground-operated winding lock brace (above left), classic ratchet strap-and-post setup and pneumatic lock brace (above right) that allows system to be opened and closed from the front without opening the rear. No cranks or straps to lose. All styles are removable for greater loading flexibility.

Maintenance-free one-piece construction! Durable molded wheel-and-bearing assemblies fabricated from nylon and deep groove ball bearings for longer life.

When you need tarps now, look to Shur-Co® for in-stock lumber tarps (shown below) and steel tarps (at right). Both will save you time and money! Affordable custom tarps are also available – call our Customer Service department at 800.474.8756.

Shur-Co® has in-stock lumber tarps for fast delivery, available in a range of standard sizes, with varying hem styles, drop lengths and D-ring row placement.

The larger sizes are constructed with 18-ounce vinyl tops and 10-ounce side drops to provide needed strength and durability while promoting easier handling. Use them interchangeably on flatbeds or step-deck trailers.

Size	Item	Color	Fabric	Weight	Drop	D-Ring Rows	Hem
16' W x 26' L	1115403	Black	18-Oz. Vinyl	72 Lbs.	4'	24"/48"	Grommets
16' W x 26' L	1115402	Blue	18-Oz. Vinyl	72 Lbs.	4'	24"/48"	Grommets
20' W x 26' L	1115493	Black	18-Oz. Vinyl	95 Lbs.	6'	24"/48"/72"	Grommets
24' W x 20' L	1900807	Black	18-Oz. Vinyl Top, 10-Oz. Side Drops	75 Lbs.	8'	24"/48"	D-Rings
24' W x 26' L	1115462	Black	18-Oz. Vinyl Top, 10-Oz. Side Drops	94 Lbs.	8'	30"/60"/90"	D-Rings
24' W x 26' L	1115463	Blue	18-Oz. Vinyl Top, 10-Oz. Side Drops	94 Lbs.	8'	30"/60"/90"	D-Rings
24' W x 27'6" L	1901618	Black	18-Oz. Vinyl Top, 10-Oz. Side Drops	105 Lbs.	8'	30"/60"/90"	D-Rings

Shur-Co's in-stock steel tarps will keep your loads clean and dry. We guarantee the finest tarp materials: Each fabric lot is lab tested for abrasion resistance, tear strength and cold-temperature flexibility.

In-stock steel tarps are also available in three standard sizes, with varying length and/or width reinforced D-rings. The tabbed rings are tucked up into the webbing, then double stitched to prevent pull out.

Shur-Co® workmanship is legendary in the industry. You won't find a better, longer-lasting tarp – and the in-stock convenience and affordability are an added bonus!

Size	Item	Color	Fabric	Weight	D-Ring Rows
14' W x 24'6" L	1109845	Black	18-Oz. Vinyl	58 Lbs.	18"/36"
16' W x 24' L	1111562	Black	18-Oz. Vinyl	61 Lbs.	24"/48"
