

AUTOCOVER™

R001FL-1022

**Patent Pending*

FEATURES

- One-piece flexible cover material with one-piece gasket
- Pneumatically operated on shop air
- Controls located on opposite corners, car orientation does not matter
- Can be retrofitted to existing cars

VALUE

- IMPROVED SAFETY
 - No more walking on top of the car
 - Eliminates manual opening and closing of hatch covers
- REDUCED COST
 - Less labor, opens and closes in seconds, potential to reduce manpower
 - No fall protection equipment needed
- OPERATIONAL FLEXIBILITY
 - Allows cars to be opened and closed anywhere air is available

EXCEEDS S-2037 STANDARDS FOR:

Dollar Bill Gasket Compression • UV Stability • Penetration • Obstructed closure • Gasket securement • Fatigue
