

# SHUR-LOK<sup>®</sup>

## SIDE ROLL TARP

SC006FL-0819

### FEATURES AND BENEFITS

- Aluminum Latchplate
- Easy-Off Tarp Stops
- Shur-Flex<sup>™</sup> Crank Arm
- Front Roll Return
- Offset Crank Retainers

Shur-Lok<sup>®</sup> provides you with watertight dependability, for increased productivity and less downtime – because more loads mean more profit. The Shur-Flex<sup>™</sup> crank offers convenient flexibility. It folds at the knuckle and secures with offset or pinless offset retainers – no more pin-and-cable hassles.

The front fabric cap makes it easier to come over the top of the doghouse. Double bows secure into a double bow bracket – exactly the right spacing for tightening down the front of the tarp. The front stretch roll return guides the roll tarp over the end cap. Reinforced stitching along the radius corner of the fabric cap helps the tarp withstand the stresses of highway speed.

Electric Shur-Lok<sup>®</sup> options are also available for most trailer types.

# THE SHUR-CO® DIFFERENCE

## High-Lift End Gates

Our high-lift option is an offset adjustable bracket that allows the latchplate and tarp stop to be spaced out flush with the width of the end gate.

## Shur-Flex™ Crank Arm

Our exclusive Shur-Flex™ crank arm allows you to store the crank on the side of the truck or trailer box rather than across the rear – avoiding obstacles like rear doors and gates.

## Durabow™

The molded composite provides good support, keeps the tarp tight, reduces tarp wear and forms an arch to shed water. The resin bow flexes down to reduce loader damage, springs up into position to support the tarp.

## Turning Point Bow™ System

Our exclusive locking system holds bows in place but unlocks with the pull of a rope to swing up and over loads without binding. Also available in electric.

## Flexible Easy-Off Tarp Stop

Super-strong construction – impact and abrasion resistant, yet maintains flexibility through temperature and moisture changes. Ideal for sub-zero conditions. Available in upright or 6” offset.

## Shur-Return™

Zinc-plated inside and out with a heavy-duty steel tension spring and 1/4” non-stretch solid braid rope. Assists the roll-tube across the truck or trailer when closing the tarp.

## Serving You Worldwide
