

BUILT TO BE THE BEST.

FLASH™

ALUMINUM TARP SYSTEM

D008FL-0819

STANDARD FEATURES

- Extruded Aluminum Roller Bar with Side Plates
- Aluminum High-Gloss Pivot Arms
- Durabuilt™ Motor with 3-Year Warranty
- Rotary Switch
- Assembled Housings - Standard for 38' and 41' Kits

WHEN BEING TOUGH IS A REQUIREMENT

The Flash™ is the toughest dump body covering system on the planet, engineered for both durability and superior safety. The side mount spring assembly features five springs per side. An exclusive extra-strong stamped-steel spring enclosure, dubbed “the clamshell” for its impressive closing capabilities, protects the springs from rocks, mud and debris. A two-part stamping process eliminates welds and contributes to a more indestructible product, and the heavy-duty Grade 8 spring pin will not break. Models marked “UB” are designed with 22-coil underbody spring assemblies.

FITS BOXES & TRAILERS - UP TO 23'

Complete system part numbers with options.

PART NO.	KIT NAME	ARMS	SPRINGS	WIRE	ELECTRICS
1801927	Flash™	Straight	5-Spring Steel	60'	Rotary Switch
1801945	Flash™	30° Bend	5-Spring Steel	60'	Rotary Switch
1800427	Flash™ UB	Straight	22-Coil UB Torsion	60'	Rotary Switch
1800495	Flash™ UB	30° Bend	22-Coil UB Torsion	60'	Rotary Switch

FITS BOXES & TRAILERS - UP TO 38'

Complete system part numbers with options.

PART NO.	KIT NAME	WIDTH	ARMS	SPRINGS	WIRE	ELECTRICS
1800318	Flash™ 38*	96"	Straight	22-Coil UB Torsion	60'	Rotary Switch
1803942	Flash™ 38*	102"	Straight	22-Coil UB Torsion	60'	Rotary Switch

FITS BOXES & TRAILERS - UP TO 41'

Complete system part numbers with options.

PART NO.	KIT NAME	WIDTH	ARMS	SPRINGS	WIRE	ELECTRICS
1801534	Flash™ 41**	96'	Straight	14-Coil UB Torsion	60'	Rotary Switch
1808911	Flash™ 41**	102'	Straight	14-Coil UB Torsion	60'	Rotary Switch

*Previously known as Long Arm
 **Previously known as Long Arm 41

FLASH™

ALUMINUM TARP SYSTEM

Pivot Arms

Pivot arms are thick-walled and virtually unbreakable. The professional, bright dipped, anodized coating protects the system from corrosive environments. Optional 30° arms are bent with a specially-made die in a one-piece design, for optimum structural integrity.

Aluminum Elbows

Die-cast 90° aluminum elbows at rear cross piece match arm shape and enhance arm strength.

Stamped Steel Spring Enclosures

Super-strong stamped steel spring enclosures protect springs from rocks, mud and debris. An upper bolt slot simplifies arm installation. Our 2-part stamping process eliminates welds and the grade-8 pins won't break.

3-Year Motor Warranty

The dependable Durabuilt™ 12V direct-drive electric motor has an in-cab rotary switch for operator convenience. The motor comes with a three-year full replacement warranty.

Safety and Durability

The Flash has been specifically engineered for durability and an ultra-high safety factor in the hard-working construction environment.

Load Security

Five springs (1801927 & 1801945) per side ensure that your load stays safe and secure even at highway speeds. Secures bodies up to 23 feet long. 22-coil and 14-coil underbody torsion springs for end dump trash models provide optimal hold-down force for proper load containment.

Huge Tarp Selection

When pricing your Flash™ system, you will need to order your choice of tarp and add that to the price. Choose from heavy-duty mesh, multicolored PVC mesh, 18-oz. vinyl or asphalt lumite. Asphalt lumite is water resistant and not PVC coated, so it's able to handle much higher heat levels than vinyl.

In addition to lumite, other asphalt-friendly selections are also available, including RFL, urethane-coated airbag, 22-oz. vinyl and Donoprene. More tarp options can be selected, such as non-standard colors, side flaps, reinforced pockets or hems, webbing, boxed corners, grommets, and D-rings.

Optional Upgrades

Optional upgrades include 40-amp Durabuilt™ rocker switch kit with solenoid, wind deflectors, pivot arm rests and spring trap and tarp trap hold-downs.

Professionally Built

Metal components have been finished with a professional, high-polish zinc protective coating.
