

TRAPADAPT™

ELECTRIC TRAP OPENER

A039FL-0620

FEATURES AND BENEFITS

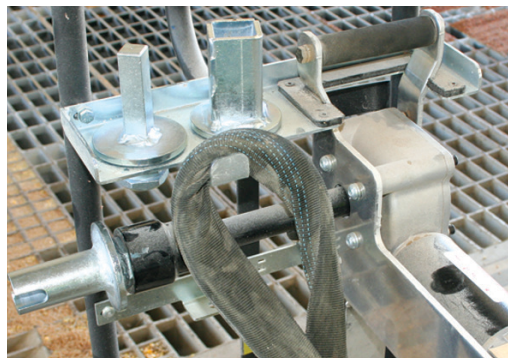

- Aluminum Handle w/Forward-and-Reverse Switch
- Worm Gear Durabuilt™ Motor
- Vented Aluminum Battery Box w/On-and-Off Switch
- 2-Wheel Cart

*Battery is NOT furnished; Group 27 or 31 Deep-Cycle Marine Battery recommended for best results.

TrapAdapt™ does the work of an electric hopper opener for you, saving time and helping elevator employees be more efficient. Time equals money, and this aluminum-handled kit speeds up work. The handle has a forward-and-reverse switch built right in and weighs just 21 pounds for easy lifting.

Main socket designed to fit most popular-brand hoppers on the market. Durabuilt™ worm-gear motor has a 90:1 gear ratio and 3/4-inch motor shaft. Vented aluminum battery box is equipped with an on/off switch, motor-reversing solenoid, 8-amp charger, manual override breaker and battery hold-down*.

Handle, motor and battery box all come attached to an included 2-wheel cart and weigh less than 70 pounds without a battery. Also available is an optional 5-inch LED light.
