When measuring for a replacement tarp, there are circumstances where you can select a standard Express Tarp in place of the calculated tarp length and still have the tarp cover and function properly.

The following are the current offering of the Shur-Co® Express Tarps. An acceptable Express Tarp length can be up to 2" longer than calculated tarp length from above. If an acceptable tarp length of color is not listed below, contact your nearest Shur-Co® service center or your local Shur-Co® Authorized Dealer to order your custom-built tarp. **ALL EXPRESS TARPS ARE BLACK.**
