Order our in-stock steel and lumber tarps for convenience and fast delivery – available when time is of the essence but you don't want to pay for a custom tarp. Standard features of our in-stock steel tarps are reinforced D-rings, hem with D-rings (no folds) and black web. D-rings are carefully positioned between the heavy-duty poly webbing and vinyl-coated tarp fabric, then Z-stitched into place for added strength and durability. Standard features of our in-stock lumber tarps are a universal 9-foot wide flap, vertical row D-rings, black web and grab handles that are double stitched to prevent pullout. All D-rings and grommets are placed 24 inches on center.
